The Cabo Verde Ministry Of Industry, Commerce And Energy has begun a search for developers for battery energy storage systems (Bess) on the islands of S#227;o Vicente and Boa Vista.

SAET has built a new MV sorting station on the island, installing the new BESS at it. We will also support Electra for the next two years in the operation and management of the system.

The company will also add a battery energy storage system (BESS) with a capacity of 9 MW/5 MWh in Santiago and another unit of 6 MW/6MWh on the island of Sal. The new facilities will contribute to annual cost savings of around CVE 1 billion in fuel imports, according to Cape Verde's minister of industry, trade and energy Alexandre Monteiro.

This new project will finance the expansion of promoter's existing windfarm in Santiago island and the installation of at least two Battery Energy Storage Systems (BESS) in Cabo Verde. In ...

The Aurora Battery Conference 2024 has quickly grown into one of the largest energy storage focused events in the UK. At the event, we will: Illuminate strategies for navigating risks such as grid congestion. Discuss the most promising markets for BESS projects. Explore how to maximise value within each market.
