What is the Latin America Energy Outlook?

The Latin America Energy Outlook, the International Energy Agency's first in-depth and comprehensive assessment of Latin America and the Caribbean, builds on decades of collaboration with partners. In support of the region's energy goals, the report explores the opportunities and challenges that lie ahead.

What data is available for the Latin America Energy Outlook 2023?

Data is available for mining, electricity generation capacity, natural gas and oil infrastructure, as well as the vulnerability of these resources and energy supply infrastructure to climate impacts in the region. This information is based on IEA analysis carried out within the framework of Latin America Energy Outlook 2023.

Will capacity payments be applicable to energy storage systems in Chile?

Pursuant to Law 21,505, the Chilean Ministry of Energy has proposed to amend the regulations on capacity payments to allow for those payments to be applicable to energy storage systems.

Is Chile ready for a battery storage project?

Battery storage projects cannot come soon enough for Chile. While Chile has been at the forefront of renewable energy generation growth in Latin America for close to a decade, that growth has most recently undergone serious growing pains.

Is Chile a ripe market for Bess investment opportunities?

The Chilean renewable energy landscape and recent regulatory reforms promoting the development of energy storage systems have made Chile a ripe market for BESS investment opportunities.

Beta Enerji ve Teknoloji A.S. is a leading technology company providing innovative solutions in the energy sector. It operates in Adana Hacı Sabancı Organized Industrial Zone on an area of 63.680 m²; and manufactures high quality oil and dry type distribution transformers, power transformers and special winding transformers.

The key requirement of this work package is the development of a database (and supporting summary report), compiling information for potential renewable energy business and technology solutions to help overcome environmental and climatic challenges in the NPA programme region.
