

What is BMZ Hyperion?

The BMZ Hyperion sets a groundbreaking standard in the energy storage industry. With its advanced high-voltage technology, the system not only delivers impressive performance but also boasts a high adaptability to diverse requirements. Developed in close collaboration with inverter manufacturers, BMZ Group offers all-in-one solutions.

Where is BMZ Hyperion made?

Made in Germany: Powerful energy storage The BMZ Hyperion SE (Special Edition) combines the highest quality and advanced technology in one energy storage system. Manufactured in Germany, it offers an outstanding combination of energy capacity, efficiency and reliability. Ideal for private households, commerce and industry.

Why is BMZ Hyperion a good choice?

The Hyperion's modular design enables flexible scalability, making it the optimal choice for both residential and commercial applications. Its focus on efficiency, reliability, and adaptability positions the BMZ Hyperion as a forward-thinking solution for sustainable energy supply.

What is BMZ Hyperion special edition?

Technical features and performance: The BMZ Hyperion Special Edition is available in different module sizes: - 3 modules: 7.5 kWh energy, 155 V nominal voltage (only compatible with SMA Sunny Boy Storage and Kostal PLENTICORE inverters)

What is a Hyperion SE (Special Edition)?

The Hyperion SE (Special Edition) sets new standards as a lithium-ion home storage system with innovative 18650 cell technology. Developed and built in Germany, it offers an impressive storage capacity of up to 15 kWh and is characterized by robustness and reliability. Made in Germany: Powerful energy storage

What does BMZ stand for?

The test laboratory tests, develops and certifies batteries for all safety, transport and environmental requirements in accordance with statutory regulations. The name BMZ stands for the highest level of sustainability with its innovative, high-quality products and after-sales service.

Der BMZ Hyperion setzt einen wegweisenden Standard in der Energiespeicherbranche. Mit seiner fortschrittlichen Hochvolt Technologie bietet das System nicht nur beeindruckende Leistung, sondern auch eine hohe ...

The BMZ Hyperion sets a groundbreaking standard in the energy storage industry. With its advanced high-voltage technology, the system not only delivers impressive performance but also boasts a high

adaptability to diverse requirements. Developed in close collaboration with inverter manufacturers, BMZ Group offers all-in-one solutions.

BMZ approved quality *Emergency or backup power operation only with emergency or backup power-capable inverters. For details on the functions and requirements, please contact the ...

Der BMZ Hyperion setzt einen wegweisenden Standard in der Energiespeicherbranche. Mit seiner fortschrittlichen Hochvolt Technologie bietet das System nicht nur beeindruckende Leistung, sondern auch eine hohe Anpassungsfähigkeit an unterschiedliche Anforderungen.

Der BMZ Hyperion 7.5 besteht aus 3 Modulen mit einem Energieinhalt von 7,5 kWh und 155 V Nennspannung. Darin sind hochqualitative Lithium-Ionen Batteriezellen verbaut. Der ...

The BMZ Group have launched one of the worlds first high-voltage storage system called Hyperion. The new innovative Hyperion high-voltage storage system is modular in design and allows easy and reliable installation as well as future expansion of the storage system if higher energy volumes become necessary.

The BMZ Group have launched one of the worlds first high-voltage storage system called Hyperion. The new innovative Hyperion high-voltage storage system is modular in design and allows easy and reliable installation as well ...

The HYPERION LONG LIFE home energy storage system from BMZ Group is a high-voltage lithium-ion storage system that has been developed for a self-sufficient energy supply. With an impressive lifespan of 20 years and a robust design, it is ideal for a wide range of applications, including households, industry, medical systems and e-mobility.

The BMZ Hyperion SE (Special Edition) combines the highest quality and advanced technology in one energy storage system. Manufactured in Germany, it offers an outstanding combination of energy capacity, efficiency and reliability. ...

BMZ Hyperion LONG LIFE (12.6 kWh): This high-voltage lithium-ion storage system impresses with a service life of 20 years and over 10,000 charging cycles. The robust metal construction ...

The BMZ Hyperion sets a groundbreaking standard in the energy storage industry. With its advanced high-voltage technology, the system not only delivers impressive performance but ...

and reliability. Ideal for private households, commerce and industry.

Der BMZ Hyperion 7.5 besteht aus 3 Modulen mit einem Energieinhalt von 7,5 kWh und 155 V Nennspannung. Darin sind hochqualitative Lithium-Ionen Batteriezellen verbaut. Der notstromfähige Speicher reduziert die Gesamtsystemkosten und erhöht die Systemeffizienz.

The Federal Ministry for Economic Cooperation and Development (BMZ) has significantly increased its support for Yemen in the last few years. In 2023, the BMZ committed a total of 163.7 million euros in new funding.

BMZ approved quality *Emergency or backup power operation only with emergency or backup power-capable inverters. For details on the functions and requirements, please contact the inverter manufacturer.
