

PowerSafe ® SBS TPPL battery designs, EON Technology monoblocs and cells have been developed to provide high performance in applications where the battery is subjected to repeated cyclic duty, in challenging operating conditions (high temperatures, unreliable grids, ...

The EnerSys® range of PowerSafe® SBS batteries continues to offer unrivalled choice and performance in compact and energy dense configurations. PowerSafe SBS batteries are manufactured to the highest international standards and are ideal for reliable use in all wireless and fixed-line communication applications. PowerSafe SBS

o PowerSafe SBS is designed for use in cabinets, or on stands, close to the point of use. A separate battery room is not required o PowerSafe SBS is ideal for installation as an integral part of a standby system due to its long life o PowerSafe SBS is also available for underwater applications Standards o Fully compliant with BS 6290 ...

The PowerSafe SBS EON Technology battery range is available in two configurations: the front terminal SBS B14 - SBS 210F designs which make installation and inspection quick and easy

Manufactured to the highest international standards, PowerSafe® SBS batteries offer outstanding performance in both float and cyclic applications. The high energy density of these batteries makes them ideal for system upgrades or reduced installation footprint, while still delivering dependable backup protection.
