The mineral-rich Democratic Republic of the Congo (DRC) is often portrayed as a victim of exploitation by China, the US and Europe in their competition for its minerals, which are critical for the energy transition. But our research has found that the DRC can influence the shape of the cobalt market, in which it is the single largest producer.

As a producer of lithium-ion batteries that feature cobalt, Northvolt has been involved with the Democratic Republic of Congo (DRC) - the world's primary source of the cobalt used in most batteries on the market today.

The Congolese Battery Council (CCB), a structure which manages the major pan-African project for the electric battery industry, presented its vision for almost a year on ...
