It is possible to save the money you spent on a solar system through reduced electricity bills in a shorter timeframe. In spite of these great underlying conditions, most of the electricity in Cyprus is still produced by burning fossil fuels. By getting a solar system installed, we believe you can combine saving money with doing good for the ...

It is possible to save the money you spent on a solar system through reduced electricity bills in a shorter timeframe. In spite of these great underlying conditions, most of the electricity in Cyprus is still produced by burning fossil fuels. By getting a solar system installed, we believe you can ...

The maximum power of a Net-Metering photovoltaic system in Cyprus depends on the power supply of each building. The maximum power of a photovoltaic system with a 1-phase power supply is 4.16 kW and of a photovoltaic system with a 3-phase power supply is 10.4 kW.

For houses with single phase electricity, the upper limit for installed power of the solar system is 4.16 kW. For houses with three phase electricity, the upper limit for installed power of the solar system is 10.4 kW.

With incentives such as the Grant Scheme and financing options like Bank of Cyprus" Energy Loan program, the installation of photovoltaic systems has become more affordable and accessible in Cyprus. Stay up-to-date on available incentives and financing options to make the most informed decision when it comes to installing a photovoltaic ...
