Based in Dominica, we offer products, installation and maintenance services. We offer a range of solar systems specially designed and tested for tropical conditions, from the most compact one able to power a simple phone/laptop/ tablet and a few bulbs, to larger solar systems tailored to power entire homes or businesses such as resorts.

Investing in a home photovoltaic system off-grid with Lifepo4 batteries is profitable and pays off quickly. In the Dominican Republic there is a lot of sun all year round, so you can produce a lot of energy from your panels. You can also benefit from subsidies or tax breaks for purchasing and installing the system.

Schletter's vertical solar mounting system allows you to seamlessly integrate your solar panels with your building's facade, enabling you to harness solar energy efficiently and sustainably. Our range includes elevated and parallel mounting systems made specifically for facades and designed with an unwavering commitment to quality ...

Dominica has a very high solar potential and set a renewable energy mix target of 100% by 2035. Presently Dominica's energy mix is comprised of 37% renewable energy on the public grid. Its electrical demand peaks at 13MW and its electricity prices are high relative to ...

Since 2020- Targeting solar electricians on and off island; Be it in Dominica or on other Caribbean islands. Or for 'hands On'; customers willing to save by 'Doing it themselves'. We deliver a pre-designed, pre-mounted and wired, pre ...

These 7 examples show the possibilities of integrating Solarix standard solar panels in office and residential buildings. Solarix solar panels are used in the closed parts of the facade, in combination with open parts (glass) and with or without other facade materials. Standard panels can be applied to the full floor height or combined with ...

Since 2020- Targeting solar electricians on and off island; Be it in Dominica or on other Caribbean islands. Or for 'hands On'; customers willing to save by 'Doing it themselves'. We deliver a pre-designed, pre-mounted and wired, pre-tested solar kit.

Solar facade systems redefine aesthetics and enhance the built environment with durability, resilience, and sustainable energy integration.

## Dominica solar facade panels

Based in Dominica, we offer products, installation and maintenance services. We offer a range of solar systems specially designed and tested for tropical conditions, from the most compact one able to power a simple phone/laptop/ ...

We develop colored solar panels that can be used as building element on facades. Soluxa solar panels can thus be used instead of conventional facade cladding, such as panels made of aluminum or composites. Together with our partners, Soluxa develops solutions for solar facades in which colored solar panels are combined with insulation.
