

Eaton xstorage home Puerto Rico

Who is Eaton xstorage home?

Eaton is a global power management with a 100-year history that works with lithium-ion battery technology from Nissan, the world's leading electric vehicle manufacturer by volume. Eaton only works with highly qualified installers, who are members of the Eaton xStorage Home Authorised Installer Partner Programme.

Why should you use Eaton's energy storage system?

With Eaton's energy storage systems, homes and businesses gain access to a safe, reliable and efficient power management that harnesses the full potential of renewable sources. Now you can store energy when it's available and when rates are at their lowest, and use it when you need it.

How does xstorage home work?

xStorage Home can provide homeowners with energy if the grid fails, powering critical loads such as lights and security systems. xStorage Home can save on energy bills by using more solar power and harvesting cheap off-peak electricity. Homeowners can access xStorage Home from multiple devices, wherever they are.

Is xstorage home authentic?

Authenticated: The product is verified as being authentic; however, this does not guarantee the condition or fit for purpose of the product. xStorage Home is a complete system, housed in a single unit, that integrates everything needed to manage and store energy in homes. See what xStorage Home can do for homeowners.

How many power inverters does the xstorage home system offer?

The xStorage Home system offers three different power inverter ranges. The following Table 3 provides a technical specification for all three different hybrid inverters. Max. DC voltage Max. Critical Load Max. AC current Green (ON): Normal status; Red (ON): Fault status.
