

How the current COVID-19 outbreak affects our service As you may know, Energy Control is based in Spain. On March 16th, 2020, the government declared a state of national alert and enacted confinement measures to slow down the spread of the virus.

Company profile for installer Elett Energy Control - showing the company's contact details and types of installation undertaken.

CENER offers control systems that allow the optimization of the joint operation of several energy generation and storage systems, either as a single plant or as a virtual power plant made up of several physical plants, also contributing to the improvement of the operation and maintenance of plants as well as the lengthening of their life and ...

The Renewable Energy Operations Centre (CORE by its Spanish initials) in Toledo controls and operates, in real time, Iberdrola's wind, photovoltaic and mini-hydraulic facilities in Spain, Portugal, Greece, Mexico, Hungary, Romania and Italy.

Energy Control provides an analysis service with the two most powerful analytical techniques available to analyze drug samples: Gas Chromatography coupled to Mass Spectrometer (GC-MS) and Liquid Chromatography coupled with Mass ...

Energy Control provides an analysis service with the two most powerful analytical techniques available to analyze drug samples: Gas Chromatography coupled to Mass Spectrometer (GC-MS) and Liquid Chromatography coupled with Mass Spectrometer (LC-MS)

Our research lines are focused on the resolution of challenges of the future power systems, allowing larger integration of renewable energy sources, energy storage, as well as power converters and electric vehicles. Our activities cover a wide range of topics within the whole power flow and value chain (from generation to consumption) including:

CENER offers control systems that allow the optimization of the joint operation of several energy generation and storage systems, either as a single plant or as a virtual power plant made up of several physical plants, ...

In Spain, we talk about the domotic system. It's basically the control system. So for example, you might want a separate temperature control in every room. The lighting and the shutters can automatically adjust during the day or you can have a number of pre-set settings (watching TV mode, party mode, cleaning mode, etc.)

We are located in Spain and we have offices in Catalonia, Madrid, on the Balearic Islands and in Andalusia.

Energy control system Spain

Energy Control was founded in Barcelona in 1997 as a pioneer project in Spain in the field of harm reduction associated to recreational drug use. Since then, we have been recognized and acknowledged by local, national and European ...
