

Energy power solution Niger

How can Niger improve energy access?

Broadening energy access is a central national development objective in Niger. At present, less than 25% of the population enjoys access to electricity, and the picture in rural areas is bleaker, at less than 5% electricity access. Generation of electricity through renewables has long been viewed as an important way to close this gap.

Does Niger need reliable electricity?

The Government of Niger views providing reliable electricity and other basic energy services to all populations and parts of the country as a critical aspect of its inclusive economic transformation plans. It also recognises decentralised renewable energy options as a cost-effective alternative to grid expansion in many rural areas.

How can Niger balance its energy mix?

This transformative project, funded by the World Bank through the International Development Association (IDA), will enable Niger to better balance its energy mix, which is currently largely dominated by thermal energy. This initiative is particularly crucial for a country that frequently faces climatic shocks.

What is Niger's energy mix?

Mainly used for electricity generation and transport, petroleum products account for 18% of Niger's energy mix. Their share of the total has increased in recent years. Mineral coal for electricity generation accounts for the remaining balance at 3% of total energy supplies in Niger.

Are there any off-grid solar energy systems in Niger?

There is considerable experience of off-grid PV electrification, water pumping and solar water heating systems in Niger. Each of these will be explored below. The main decentralised renewable energy system being promoted in Niger for rural electricity is solar PV.

Who owns Nigerien Electricity Company?

The Sociéte Nationale d'Electricité - NIGELEC - the Nigerien Electricity Company, is the utility responsible for electric power generation, transmission and distribution in Niger. Established in 1968, NIGELEC is majority owned by the government of Niger.
