

CCU will demonstrate high-efficiency energy storage technologies, including fuel cells and flywheel systems. They will showcase customized membrane electrode assemblies, key components, and stacks for water electrolysis and fuel cells.

The event comprises four sub-exhibitions: PV Taiwan, Wind Energy Taiwan, Smart Storage Taiwan, and Emerging Power Taiwan, seamlessly connecting stakeholders across the entire green energy industry, from ...

2022 Energy Taiwan, as in previous years, has invited the leaders of the renewable energy industry. Significant growth can be seen in the scale of the exhibitions, especially Smart Storage Taiwan, which has grown by nearly 100% from the year before and is followed by Wind Taiwan with a growth of almost 40%.

Energy Taiwan is the biggest B2B renewable energy and net-zero trade show in Taiwan that focuses on "PV Taiwan", "Wind Taiwan", "Smart Storage Taiwan", and "Emerging Power Taiwan" to establish a comprehensive green energy economic system.

The event comprises four sub-exhibitions: PV Taiwan, Wind Energy Taiwan, Smart Storage Taiwan, and Emerging Power Taiwan, seamlessly connecting stakeholders across the entire green energy industry, from upstream to downstream. Each sub-exhibition features the latest products, technologies, and solutions shaping the future of renewable energy.

TASS2023, themed "Solutions toward Net Zero," is the only net-zero transformation exhibition that focuses exclusively on supply chain solutions in Taiwan. It features six major exhibition categories including Resource Circulation, Water, Energy, Institutions, Pollution Prevention, and Sustainable City.

Starting this year, SEMI will officially rename the Energy Group as the Green Energy and Sustainability Alliance(GESA), covering PV, wind energy, hydrogen energy, energy storage, emerging power, green finance and etc. GESA spares no efforts as it helps accelerate the pace of energy transition in Taiwan.

In addition to sharing diverse perspectives from renewable energy and energy storage technology experts at the pre-exhibition press conference, this year's Energy Taiwan and Net-Zero Taiwan exhibitions will bring together the latest green energy innovations, industry associations, and leading companies to exchange knowledge and explore new ...

Energy Taiwan is an event that brings together the most innovative and forward-thinking minds in renewable energy. Featuring four distinct events in one, PV Taiwan, Wind Energy Taiwan, HFC Taiwan, and Smart Storage Taiwan, the show provides a comprehensive platform for exhibitors to showcase t...
