How many solar mini-grid sites are there in Sierra Leone?

In 2020 Power Leone signed an MOU with the Government of Sierra Leone to construct and operate 40 solar mini-grid sites with 1.4 MW capacity across rural Sierra Leone. In 2024, Sierra Leone is constructing and commissioning 17 of these mini-grid sites (800 kW).

Why is solar energy important in Sierra Leone?

We prioritize the use of renewable energy sources such as solar power to reduce greenhouse gas emissions, mitigate climate change, and preserve natural resources. By harnessing the abundant solar energy resources available in Sierra Leone, we contribute to a cleaner, greener future for generations to come.

What is power Leone?

Power Leone stands as the cornerstone of Energicity's operations. With solar mini grids established in 30 communities, we bring reliable and sustainable power to over 7,000 customers. Sierra Leone Rural Renewable Energy Project

Why should you choose a solar mini-grid solution in Sierra Leone?

By harnessing the abundant solar energy resources available in Sierra Leone, we contribute to a cleaner, greener future for generations to come. Ready to experience the benefits of off-grid solar mini-grid solutions?

This greenfield initiative, developed by Frontier Energy and Planet One, marks Sierra Leone's inaugural large-scale grid-connected solar Independent Power Producer (IPP). The investment addresses the critical need for clean, affordable, and stable power in a nation where only 23% of the population currently has access to electricity.

6 ???&#0183; There are over 100 solar mini-grids in operation in Sierra Leone under Private sector portfolios. Based on experience and with support from SEforALL, SLWERC has developed an improved Multi Year Tariff Order, (MYTO2), which provides further ...

This greenfield 50MW solar power project, developed by Frontier Energy and Planet One, will be the country's first large-scale grid-connected solar Independent Power Producer (IPP). The investment ...

In 2020 Power Leone signed an MOU with the Government of Sierra Leone to construct and operate 40 solar mini-grid sites with 1.4 MW capacity across rural Sierra Leone. In 2024, Sierra Leone is constructing and commissioning 17 of ...

This greenfield 50MW solar power project, developed by Frontier Energy and Planet One, will be the country's first large-scale grid-connected solar Independent Power Producer (IPP). The investment underscores the country's commitment to diversifying its energy mix and addressing the urgent need for clean,
