

G2 energy solutions Curaçao

Curaçao has a high solar potential and set a renewable energy mix target of 50% by 2035. Presently Curaçao's energy mix is comprised of 33% renewable energy on the public grid. Its electrical demand peaks at 130MW and its electricity prices are high relative to ...

G2 Energy offer High Voltage Electrical and Civil engineering services, including grid connections, for a variety of power engineering projects across a number of sectors throughout the UK. Read more multiple

We provide energy modeling solutions to help design teams succeed. Increased design & budget flexibility. Using an energy model for energy code compliance will give you more options. **IMPROVED DESIGN PHASE DECISION MAKING.** An energy model will give you information to make better decisions. **ADDED VALUE TO YOUR CLIENT**

Battery Energy Storage Solutions Completing over 20 fully operational BESS developments, with circa 700MWhr of BESS capacity connected to the grid. Industrial & Commercial

More than 40 members of the former G2 energy team, including its senior leadership, have joined the Mitie Projects business and will support Mitie's existing capabilities in energy, decarbonisation and high voltage electrical engineering services, complimenting the work of its Rock Power Connections and Custom Solar businesses.

End-to-end energy solutions. As an independent connection provider (ICP), G2 Energy delivers contestable works at voltages up to and including 132kV, and National Grid self-bay works up to 400kV. We operate a fully audited and ...
