Does Huawei support Angola's green development strategy?

Through their partnership with Huawei, they are already on the path towards green networks and lower network OPEX which will undoubtedly support Angola's socio-economic and industrial development. Huawei actively supports the green development strategies of its operator customers.

Angola's cell phone company Unitel has signed a contract with Huawei, the Chinese technology giant, to implement green power generation systems for its network. The initiative aims to reduce the use of diesel generators, allowing Unitel to optimize the sustainability of its services in the central African country.

Working with Huawei allows Unitel to establish green networks with minimal operational expenditure (OPEX), consequently driving Angola's socio-economic development. The low-carbon technologies are expected to reduce the time spent by Unitel's crews on diesel generators by up to 75% and its operating costs by 40%.
