El constante incremento en la demanda de electricidad, las fallas y el consiguiente aumento en los costos, hace que se gire la mirada hacia la energía solar en todo el planeta como fuente inagotable y Venezuela no es la excepción, la cual canalizada mediante el uso de paneles solares, se convierte en una excelente alternativa tanto doméstica ...

Venezuela is a nation overwhelmed by relentless blackouts and is seeking energy alternatives in the middle of a long-lasting energy crisis. In Maracaibo, the second largest city in the country, solar energy has emerged as a practical and eco-friendly solution.

The Cecosesola central cooperative health center in the western Venezuelan city of Barquisimeto installed solar panels to power some of its services and raise awareness about the importance of clean energy. Years ago solar installations were made in remote rural areas, but recently they are making their way into cities. CREDIT: Cecosesola

Venezuela is a nation overwhelmed by relentless blackouts and is searching for energy alternatives amid a long-lasting energy crisis. In Maracaibo, the second largest city in the country, solar energy has emerged as a practical and eco-friendly solution.

Zulia Solar and Venezuela Solar have put forth a three-point proposal to the government to facilitate the widespread adoption of solar panels. The first point involves importing panels from China at competitive prices, leveraging existing trade relations. The second point focuses on exempting solar energy components
