

Ireland centiel premium tower

What is premium Tower TM?

Developed and manufactured in Switzerland, PremiumTower (TM) provides the highest standards of quality in components and manufacturing processes approved by the Swiss made label. High reliability by design. Three independent power converters increase system reliability and provide power continuity even in cases of power component failure.

Why should you choose premium Tower TM?

At the same time, the high efficiency of 96.6% in double conversion (VFI) and 99.4% in Ultra-safe ECO mode guarantees maximum energy savings and Lowest Total Cost of Ownership. PremiumTower (TM) provides unity power factor which avoids the need for system over size to support today's power factor corrected loads.

What is the short circuit capacity of premium Tower TM?

With a Short Circuit Capability of 3 times nominal current ($3 \times I_n$), PremiumTower (TM) is able to clear output circuit protection in milliseconds. Internal Isolation Transformer

How many battery blocks can be fitted in a premium tower?

Integrated autonomies and matching battery cabinets. Up to 160 battery blocks can be fitted in the PremiumTower (10 to 60 kW), reducing the total footprint and optimizing costs. For higher ratings and extended runtime, matching battery cabinets are available.
