

Isle of Man solar panel structures

Solar PV Panels, EV Chargers for your Electric Car, Home Battery Storage, Air Source Heat Pumps (ASHP). At a price which does not cost the earth, go green today. Save Money with Green Technologies

As part of our Sustainable September campaign, we are thrilled to spotlight Manx Solar Electrical Ltd, a business dedicated to helping the Island reduce its carbon footprint through renewable energy solutions. From solar panels to heat pumps and battery storage, Manx Solar Electrical is driving innovation in renewable technology.

When investigating solar panels there are many questions: how many panels can my roof take? what will they look like? the price? how much power generated? yearly returns? go green use technology to help answer these questions as accurately as possible.

We are proud to be the Isle of Mans exclusive Tesla Approved installer of Powerwall and Wall Connectors. We are recognised for our expert knowledge of Tesla products and quality installations. [FIND OUT MORE](#)

Solar Panels Installation in Isle of Man. Accredited, Recommended & Approved Solar PV Installers. Top-rated Solar Panel Company. Request a Free Quote Today.

Manx Solar Electrical Ltd. Unit B2 Eden Business Park, Cooil Rd, Braddan IM4 2AY, Isle of Man. Call Website. Solar energy contractor. Closed Opens at 8am

Manx Utilities will own the public solar generators, with Government Departments benefiting from lease payments for supporting the installations. Solar panels will be fitted to publicly owned buildings and carparks which has been determined to have the lowest environmental impact.

Manx Solar Electrical undertakes every aspect of the installation, including annual servicing plus all requisite maintenance work. With utility prices rising and green issues climbing the agenda, there has never been a better time to invest in alternative energy sources.

Many properties in the Isle of Man are suitable for solar PV installations and you would be surprised how much energy you can produce. Click on the pictures below and you can see how much energy the two systems generate right now!

At Nexiom Ltd, we are experts in the installation of renewable energy on the Isle of Man, including solar photovoltaic panels (Solar PV), which can be used to power your home, leading to savings on your electricity bills and reducing your carbon footprint.
