

Jm battery systems Denmark

Who is Johnson Matthey battery systems?

Johnson Matthey Battery Systems supplies lithium-ion battery technology for cordless power tools, such as cordless hedge trimmers and lawn mowers. Its customers include several major producers of professional power tools, including Robert Bosch GmbH.

Where are Johnson Matthey batteries made?

Headquartered in Dundee, Scotland and with operations in Poland and sales offices in Coventry, England, Johnson Matthey Battery Systems produces batteries for all types of electric vehicles including urban delivery vehicles and high performance sports cars.

Who makes e-bike batteries?

Johnson Matthey Battery Systems supplies rechargeable lithium-ion batteries to several electric bike projects for both major component manufacturers and bike OEMs, manufacturing e-bike batteries using various cells from a range of cell manufacturers.

What is a battery management system (BMS)?

Johnson Matthey Battery Systems' BMS incorporates proprietary battery management electronics, and its four main objectives are to protect the cells and the battery from damage, prolong the life of the battery, maintain the battery in a state where it can meet the requirements of the application and to interface with the host application.

Who owns Ristma batteries?

In 2008, Axion acquired Ristma AG, a Swiss holding company whose constituent companies also had several decades of experience in battery design and manufacture. The trading companies, formerly EMB GmbH and SAT AG, design and sell battery packs for the professional power tool market and Robert Bosch GmbH is a key customer.

Why is JM considering a sale?

JM has been exploring strategic partnerships in recent months. However, the Board has determined that the capital intensity of this business is too high compared to other more established, low cost producers. With the ultimate intention of exiting, JM has decided to pursue the sale of all or parts of this business.
