

Did Estonia introduce a new solar policy?

Yes, Estonia introduced a new policy for solar and renewables in June 2018. This policy led to the deployment of approximately 90 MW of solar power, bringing the cumulative capacity to around 107 MW by the end of 2018.

Why is Estonia installing 90 MW of solar?

The 90 MW of newly deployed solar in Estonia, according to Meesak, is due to a new policy for solar and renewables introduced by the Estonian government in June. "The Electricity Market Act was passed in parliament on June 6, the real race started after the market regulation was clear," said the solar body CEO.

Who sells electricity in Estonia?

In Estonia's electricity market, Eesti Energia is the largest seller with a 60% market share and owns the largest distribution network, representing 86% of the distribution market. The Estonian Competition Authority (ECA) regulates transmission and distribution rates, as well as connection charges. Electricity in 2020:

How many Solaris buses are there in Tallinn?

For the first time, Solaris vehicles made their way to the Estonian capital 12 years ago. Apart from 350 CNG buses, Solaris has also delivered 50 zero-emission Trollino trolleybuses to Tallinn. Solaris Bus & Coach sp. z o.o. is a leading producer of city and intercity buses in Europe.

What is the biggest energy project in Estonia?

The largest ongoing energy project in Estonia is the desynchronization of the Baltic States from the BRELL grid shared with Belarus and Russia and synchronizing with continental Europe through Poland. The synchronization of the Baltic States' power system with the Continental European Network is expected to be completed by 2025.
