

Solar with battery backup Armenia

Discover innovation in solar products. Explore our diverse range, designed to meet your needs and elevate your experiences. Our products redefine excellence

First solar panel manufacturer in Armenia. SolarOn offers high-quality solar modules installation. Save money! Get your free consultation! ☎ 374 10 44 00 55

There is a great potential for solar energy in Armenia. Its effective use is beneficial both economically and in other spheres of social life and everyday life. The guarantee of receiving solar electricity is a free opportunity

In contrast, hybrid inverters combine solar and battery functions, enabling energy storage and backup power capabilities and providing greater energy independence. Micro-inverters are installed on individual solar panels, independently converting DC electricity to AC, optimizing performance, and offering panel-level monitoring.

Yes, a battery backup system can allow solar panels to continue generating power during a grid outage. The energy captured and stored in the batteries can be used to power essential appliances and devices in your home.

Armenian solar panel installers - showing companies in Armenia that undertake solar panel installation, including rooftop and standalone solar systems. 19 installers based in Armenia are listed below.

SolArm offers a variety of solutions in the field of solar energy (on-grid, off-grid, hybrid, microinverter systems, solar pumps, solar LED lights)

Armenia has a great potential for solar energy (the average annual value of solar energy flow on 1 m² horizontal surface is 1720 kWh/m², and a quarter of the territory of the republic is endowed with solar energy resources with an annual intensity of 1850 kWh/m²). Technology today allows us to capture and store solar energy, reducing energy ...
