

Solaris solution Myanmar

Solaris 60 is inspired by the idea of creating a Mini-Maxi, a high performance sailboat, with an overall length of 18.31 m. This length allows to take part in offshore racings, in Mini-Maxi class, including the main event in Porto Cervo that take place every year. ... This solution is normally adopted on very big boats, bigger than 140 ft ...

SolarisKit are the developers of the world's first flat-packed solar collector, a new solar hot water solution that is modern, attractive, simple to install, and easy to ship. Our solar collectors can provide carbon free hot water for homes, hotels, glamping/camping sites, and ...

Following the success of the Solaris 48" and 50" over the years, we started designing new waterlines. This project led to the creation of a new Solaris 50" with an LOA of 15,50m and beam of 4,78m. The result of the innovative waterlines is the extension of the aft sections. This solution allows the use of the twin rudder blades.

Myanmar Eco Solutions provides a high class, end-to-end service for clients seeking services within the renewable energy market in Myanmar. Our qualified team & services extend throughout the value chain starting from product sourcing to final project implementation.
