Solar inverter manufacturer Ginlong (Solis) Technologies, is set to launch its new S6 Advanced Power Hybrid Inverter, exclusively for South Africa. It will be unveiled at the Solar Show Africa 2023 in Johannesburg from April 25 to 26. The firm informs that with added generator connection and control functions, the inverter works as a fully [...]

This inverter features four Maximum Power Point Tracking (MPPT) channels, allowing for the connection of solar panels facing different directions, each channel handling up to 20A. This capability makes it compatible with high-power solar panels of 700W+, potentially increasing solar power generation by up to 16%.

Solis has been creating innovative and powerful solar products for the wider PV market since 2005. Since the partnership between SegenSolar and Solis began, the relationship has flourished, and SegenSolar is currently the sole distributor of Solis products in South Africa.
