

SmartFlower is the innovative sculptural solar flower with advanced photovoltaic solar panels that open and close to cleaning itself for maximum efficiency.

SmartFlower is an all-in-one residential solar system that's easily installed by trained professionals (3-4 hours), offers a small footprint (approximately 5 feet square), cleans itself of dirt, dust and debris twice a day, is fully automated and basically maintenance-free.

Looking for a solar system with cutting-edge technology that is capable of producing the energy you need? The SmartFlower solar is tailored to support your solar needs and while at it provides impressive features too. It comes with a convenient number of features, and its unique with ground-mounting solar panel systems.

In a bid to launch the first all-in-one highly efficient solar system, the flower blossom design of smartflower was invented. The product is designed as a flower with petals made up of solar modules. During sunrise, these petals automatically clean themselves and then open up to cover an area of 18 square metres.

Smartflower stands out in the solar energy market with its distinctive design, blending functionality with artistic flair. This innovative product features a large, flower-like structure made of specialized solar panels that unfold like petals at dawn, follow the sun's path throughout the day for optimal energy absorption, and then close ...

SmartFlower ist die innovative skulpturale Sonnenblume mit fortschrittlichen Photovoltaik-Solarmodulen, die sich für maximale Effizienz öffnen und nahe an der Reinigung halten.

At SmartFlower, we are leading the way to a glänzende Zukunft für unseren Planeten. Unsere Vision Die Welt grüner zu gestalten, Solarenergie auf ein neues Niveau technologischer Innovation zu bringen und denjenigen, die an Nachhaltigkeit und für eine bessere Energie- und Umweltzukunft glauben, eine elegante Option zu bieten.
