Sweden is a world-leading country when it comes to bioenergy. Currently, almost 54.6 percent of Sweden's energy production comes from renewable sources. Sweden is also the first country in Europe to meet the renewable energy targets set by the EU for 2020. Renewable Energy Companies in Sweden also played a huge role in this.

Using our experienced consultants with specialist knowledge across onshore and offshore wind, large scale solar and hydrogen, Renewable Sweden can offer you best-in-class business development solutions to help you make profitable clean energy projects a reality.
