

Tajikistan durapower

Who is durapower?

Since 2009, Durapower has been a leading innovator of Lithium-Ion cell technology, focusing on the research and development of battery materials, battery cell manufacturing and system integration. With a global presence spanning 23 countries and 48 cities, including European Countries, China, India and Southeast Asia.

What does durapower stand for?

Durapower Holdings (formerly known as New Resources Technology) is a company that specializes in the design manufacturing, and integration of lithium battery systems. It provides battery solutions for automotive and energy storage systems.

What is a durapower battery?

Durapower provides lithium-ion battery solutions for electric vehicles, including buses, passenger cars, light vehicles, and last-mile delivery vehicles. Durapower's marine-certified battery systems are used in hybrid and electric marine vessels, offering high power and fast charging capabilities.

Who is durapower holdings?

Durapower Holdings is an industrial firm for manufacture, research and development of Lithium-ion battery materials and storage solutions. Durapower offers modular and scalable energy storage systems for various applications, including peak shaving, emergency response, black start, and frequency regulation.

What is durapower e-mobility?

Durapower offers high-performance lithium-ion battery solutions with perfect safety track records over a number of e-mobility applications from last-mile two-three wheelers to commercial vehicles such as buses and trucks. As an integral part of public transportation systems, a bus system's regularity and reliability are essential to its success.

How does durapower work?

To realise our goals, we actively collaborate with like-minded partners across the globe. Durapower works closely with our clients worldwide to provide customised solutions for their energy storage requirements.
