Solar rooftops can produce large amount of solar power during the day and store it for future use. This mode of power generation is cost effective as it helps in reducing power bills substantially.

Speaking with CNBC-TV18 at "Budget 2024 - The Verdict," Bhalla said, "Last year, we had an allocation of about INR 10,000 crore. And this time, it's almost doubled to about INR 19,100 crore and I think that shows the commitment of the government to what we are doing in the green energy transition. A larger portion of this is, of course, primarily meant for the new ...
