

# Voou solutions Benin

Where is Voou based?

Over 10 years of dedicated research by a team of German Engineers enabled the foundation of the VOOU Group in January 2020 with offices in Germany and Japan. More locations will follow. We currently focus on the setup of local production and sales of the VOOU Solar-Battery Modules.

How do Voou solar modules work?

The VOOU Modules work under subdued light! Hence, an average of about 10 hours of usable sunlight is available per day to produce ~1.2kWh/m<sup>2</sup>/day. 1 acre can be covered to 80% (= 3,237m<sup>2</sup>) with 1,986 VOOU Solar-Battery Modules to produce energy for ~1,500 households.

Do Voou modules work under subdued light?

Represent a major global investment opportunity, with buildings making up the largest segment of the US\$231 billion energy efficiency market. The VOOU Modules work under subdued light! Hence, an average of about 10 hours of usable sunlight is available per day to produce ~1.2kWh/m<sup>2</sup>/day.
